

Residential/Commercial Water Service Maintenance Program

The protection you need from costly service line replacement.

be protected,
..... save money

As a homeowner, you know how costly repairs can be.

Typically homeowners/commercial insurance covers the damage done to our home and business, but what about repairing the item that failed? What if you could offset those costs with a Maintenance Program for only \$5 per month for residential and/or \$10 per month for commercial property!

BCWSA now offers a comprehensive Residential/Commercial Water Service Maintenance Program. The Program can help offset the cost of repairing the pipes that come into and leave your property which typically cost between \$3,000 and \$5,000 to replace for Residential and \$10,000 for Commercial.

BCWSA's Residential/Commercial Water Service Maintenance Program offers customers the peace-of-mind knowing that this potential problem that many insurance companies don't cover can now be protected, just like the rest of your home/business and property.

BCWSA strives to provide affordable services to its many customers. When you choose the BCWSA Maintenance Program you will receive professional and prompt service with a personal touch whenever the need arises.

We look forward to serving you.

For more details or to sign up for the Maintenance Program, please visit www.bcwsa.net or call **215-343-2538 Ext. 140.**

This program does not apply to industrial or multi-family properties with more than six dwelling units.
